## Order the right size - convert to & from inches

The right size improves the function of your workwear garments. Check your body measurements according to the sketch to determine what size you need. The extra inches to make the clothes comfortable are added by us when we construct the garments.

### Conversion table, Waist x Inseam, Men's sizes

C44 = 30x30	30x30 = C44
C46 = 32x30	32x30 = C46
C48 = 33x32	32x32 = C146
C50 = 34x32	33x30 = D92
C52 = 36x32	33x32 = C48
C54 = 38x32	33x34 = C148
C56 = 40x32	34x30 = D96
C58 = 42x34	34x32 = C50
C60 = 44x34	34x34 = C150
C62 = 48x34	36x30 = D100
C64 = 50x34	36x32 = C52
C146 = 32x32	36x34 = C152
C148 = 33x34	38x30 = D104
C150 = 34x34	38x32 = C54
C152 = 36x34	38x34 = C154
C154 = 38x34	40x30 = D108
C156 = 40x34	40x32 = C56
C158 = 42x36	40x34 = C156
D92 = 33x30	42x32 = D112
D96 = 34x30	42x34 = C58
D100 = 36x30	42x36 = C158
D104 = 38x30	44x32 = D116
D108 = 40x30	44x34 = C60
D112 = 42x32	46x32 = D120
D116 = 44x32	48x34 = C62
D120 = 46x32	50x32 = D124
D124 = 50x32	50x34 = C64

### Conversion table, Waist x Inseam, Women's sizes

C34 = 26x31	26x31 = C34
C36 = 27x31	27x31 = C36
C38 = 28x31	28x31 = C38
C40 = 30x31	30x31 = C40
C42 = 32x32	32x32 = C42
C44 = 33x32	33x32 = C44
C46 = 35x32	35x32 = C46
C48 = 37x32	37x32 = C48
C50 = 39x32	39x32 = C50

## – Choose the right size

You and your clothing perform better when your garments are the right size. To find the right size, measure your body as shown in the diagram and compare the measurements with the sizing chart, which also contains body measurements. When designing the garments, we add the accessories that ensure ease of movement and comfort.

### Men's sizes (this indicates body measurements, not the garment) Average height and build

	C42	C44	C46	C48	C50	C52	C54	C56	C58	C60	C62	C64	C66	C68	C70

#### LONG KNEEPADS OF RUBBER

Strong knee pads in black rubber. The knee pads are available in two lengths. Which length is suitable is described beside the trousers.

The long knee pad, art. no. 972 290 is together with approved reinforcements knee pockets approved according to EN 14404 and EU directive 89/686/CE.

This means that they have a better penetration protection against items up to 1 cm. The life span is estimated to 1 year for normal usages.

The knee pads form around your knee, which means you will stand stable also on your knees. Rubber knee pads last longer than other materials.

If you would forget them when you wash your trousers, they should handle to be washed in 85 degrees, but we give no guarantees on that.

Material: Rubber

Wash: 85°C

Item number	Color	Price
972290	Orange	<del>\$55.90</del> - <b>\$47.52</b>

#### SHORT KNEEPADS OF RUBBER

Strong knee pads in black rubber. The knee pads are available in two lengths. Which length is suitable is described beside the trousers.

The short knee pad, art. no. 972 291 is together with approved reinforcements knee pockets approved according to EN 14404 and EU directive 89/686/CE.

This means that they have a better penetration protection against items up to 1 cm. The life span is estimated to 1 year for normal usages.

The knee pads form around your knee, which means you will stand stable also on your knees. Rubber knee pads last longer than other materials.

If you would forget them when you wash your trousers, they should handle to be washed in 85 degrees, but we give no guarantees on that.

Material: Rubber

Wash: 85°C

Item number	Color	Price
972291	Orange	<del>\$45.50</del> - <b>\$38.25</b>

#### HAMMER HOLDER

Fits all garments with tamp for hammer holder Can also be attached with loose velcro clamp BH01

Item number	Color	Price
331166	Black	<del>\$17.90</del> - <b>\$15.22</b>

# Washing instructions

All of our clothes have been tested and labelled with recommended advice for washing with symbols and temperatures. Follow the instructions to extend the life of your clothes. Before washing, empty all pockets and do up zips.

## Laundry detergent

Follow the dosage instructions on the pack carefully. Avoid using detergents containing bleaching agents on any coloured items. Use a detergent for white wash for white/light-coloured workwear. Always choose a detergent that can be used for the temperature shown on the care label.

## Pre-wash

For heavily soiled clothes, use the same amount of detergent for the pre-wash as for the main wash cycle. Only heavily soiled clothes should be pre-washed. Do not soak - undissolved detergent may cause discolouration.

## Main wash

Always sort clothes by wash temperature and colour before washing. Never wash light colours with dark colours. Never wash white clothes with coloured clothes. If it says "wash separately" on the laundry label, it means the dye may bleed onto other items of clothing.

## Drying

In most cases it is best to hang garments to dry. Shake the garment, smooth out creases and seams and hang it up. Winter garments with lining dry best when turned inside-out. If workwear is tumble-dried, it is important not to over-dry the clothes and ensure that the temperature is not too high. Over-drying can damage and shrink clothing. This applies to all kinds of fabric.

## NB.

**For workwear with strong colours and reflective parts (especially high-visibility garments EN ISO 20471/EN 471), we recommend that the clothing is turned inside out before washing. This extends the life of reflective parts and allows the clothes to retain their colour. Do not use fabric softeners on garments with taped seams or breathable garments.**

Specifies temperature of wash water

Do not wash

Dry clean only

Do not dry clean

May be tumble dried at max. 50°C

May be tumble dried at max. 70°C

Do not tumble dry

Maximum iron temperature of 200°C (cotton)

Maximum iron temperature of 150°C (polyester/cotton)

Maximum iron temperature of 100°C (nylon/beaver cloth)

Bleach can be used

Do not bleach
